Venues

Future Box, MLab & CI10 > Sigmaringer Straße 25, Nürtingen
Nürtingen Main Bus Station 'ZOB' and KulturCafé SprechZimmer

Contributing to the forum discussions and activities

Programme overview and details (Part 1)

27.06.	Tuesday Events	Details
14 00	Open Landscape Academy Co-Creation Workshop	We invite the landscape forum community to co-create a collective vision: How might higher education institutions address the global and local need for democratic landscape transformation as a foundation for deep and long-term sustainability?
17 00	Transdisciplinary Talk: Landscape!	During our transdisciplinary conversation we invite representatives from different sectors and disciplines to reflect on the question: How might we promote landscape as an integrative sustainability concept?
19 00	Exhibition: Seaside	The exhibition seaside takes us to the Polish Baltic coast in Gdańsk. Inspired by the nature and cultural heritage of the Gdańsk Bay, artists from the local Academy of Fine Arts have created their own interpretations on the threshold between art and landscape.
28.06.	Wednesday Events	Details
09 00	Forum Keynote #1	Mainstreaming resilient and inclusive urban economies embedded in Nature: Perspectives from Landscape Economy with Beatrice Andreucci, La Sapienza University of Rome
11 00	WAVE and TELOS Multiplier Events	The Landscape Forum includes multiplier events and exhibitions of two ongoing ERASMUS+ Projects: TELOS – Towards a European Landscape Economy for Sustainable Urban Development and WAVE – Water Areas Visions for Europe
17 00	Forum Keynote #2	From regional visions to local meaningfulness: Making multi-scalar green space governance and planning work with Cecil Konijnendijk, Nature Based Solutions Institute, NL
18 30	Competition Award Ceremony and Exhibition	In advance to the forum, we have invited international student teams to envision alternative futures along a 20 km transect of the river Neckar in Stuttgart Region. With this competition, we aim to support systemic, integrated and holistic approaches to landscape transformation through multidisciplinary student teams elaborating planning and design proposals.
29.06.	Thursday Events	Details
09 00	Bus Station Living Lab	All day activities on Nürtingen's main bus station (ZOB)
15 30	Drama Therapy Performance	Students from NGU's drama therapy programme have worked all through the semester in dialogue with the bus station landscape and present their outcomes.
17 00	Round Table: Who owns the street?	Round table discussion organized by the City of Nürtingen. We will discuss transition pathways to a sustainable urban mobility and a restructuring of our spaces of mobility.

Programme overview and details (Part 2)

30.06.	Friday Events	Details
All day	Forum Working Groups	The six forum working groups will continue their process and synthesize their findings for the forum outcome statement.
01.07.	Saturday Events	Details
09 00	Forum final presentation and discussion	All working groups present the essence of their findings. Presentation and discussion of the forum outcome statement and farwell.
14 30	I love you – Green U! Walk	During the IGA 1993, the so-called "Green U" was created: A green corridor more than eight kilometres long, which leads all across the core areas of Stuttgart. We celebrate 30 years of the 'Green U' with a walk led by landscape architect Christof Luz.
18 00	I love you – Green U! Visioning Workshop	Afterwards, we will meet from 6 pm at the IBA'27 festival headquarters at Königsstraße 1 to reflect together on the future of the Green U. What messages does the Green U have for us today? How can we continue to think about it? What images of the future would we like to formulate?
02.07.	Sunday Events	Details
13 00	Buttenhausen Excursion <i>Contact forum organisers for more details on this excursion</i>	On Sunday afternoon we will go together on the Swabian Alb in the afternoon. Landscape architect Stefanie Schur will lead an excursion to the landscape of the former Jewish community in Buttenhausen.

Forum Working Groups

The forum working groups are open to anyone. Working group sessions are from Wednesday, June 28, in the afternoon to Friday, June 30, in the evening. Final presentation on July 1 in the morning.

The 2023 Landscape Forum Stuttgart Region will focus on the landscape of Nürtingen, a medium-sized town located at the southern edge of Stuttgart Greater Region. Nürtingen is a typical example of a transition town linking between the dense urbanisation around the city of Stuttgart itself and the rural areas on the Swabian Alb.

The 2023 landscape forum will explore this landscape by means of four site-oriented and two cross-cutting workshops.
