Marios Christodoulides

Architect,
Simpraxis
Architecture
Design Studio,
Cyprus

Marios Christodoulides

- Marios Christodoulides studied at the Massachusetts Institute of Technology where his research investigated the design process in studios and the development of computational design tools.
- He earned his BArch from California State University where he was the recipient of the AIA student gold medal award. His collaborative research work has been published in journals such as Architectural Design and was exhibited at the museum of modern art in Tokyo among others.
- After the completion of his graduate studies he was employed in Boston, first as a junior designer and subsequently as Project Architect.
- He has worked on projects ranging from housing, urban redevelopment, and university campus projects. In 2003 he returned to Cyprus where he set up an independent practice. He has been an adjunct faculty at the University of Cyprus since 2005.
- His Architecture studios have focused on ephemeral urban interventions. His work was exhibited at the Venice Architecture Biennale in 2006 & 2008. Build and theoretical work has been awarded in competitions and published in the local media as well as abroad.

Dr. Kyriakos Themistokleous

Professor at
the Neapolis
University of
Paphos,
Cyprus

Dr. Kyriakos Themistokleous

- Dr. Themistocleous teaches at the Cyprus University of Technology, Cyprus University and Neapolis University in Cyprus. He is a Senior researcher at the Cyprus University of Technology and he has been involved in more than 20 European and national funded projects in the past 5 years. He has over 100 publications in the field of environmental sciences, remote sensing, GIS, real estate and building technologies.
- He is a registered architect in the United States and Cyprus, as well as a member of the American Institute of Architects (AIA), American Planning Association (APA), Scientific and Technical Chamber of Cyprus (ETEK) and the Cyprus Architects Association (CAA). He is also the president of the Cyprus Remote Sensing Society and a member of the General Council of ETEK.
